*In the Diocese of Helena, these collections are taken on dates that differ from the USCCB national collection dates.

These national offices exist to offer support to people in need all over our world and in our own backyard. Understandably the national offices are anxious to receive the collected funds so that they may do their part in distributing them.

Please remit the collections to the diocese within two months after the collection date. This will allow for late collections in your parish and give the Financial Services staff enough time to remit the funds before the deadline.
